

MOTOROLA

TWO-WAY RADIOS

GP380: The Versatile Radio

The GP380 is essential for growing organisations because of its unique versatility. When necessary, the radio can easily be programmed in the field to add or delete features. So, whether it's the harsh environment of a construction site or the elegance of an exclusive hotel, the radio of choice is the Versatile. It's the radio that grows with you.

A wide array of features include:

- **Signalling**
The radio software encompasses Private Line™ and 5-tone selective signalling.
- **Channel Scan**
Allows activity on different communications channels to be monitored and answered.
- **X-Pand™ Voice Compression and Low Level Expansion**
Crisp, clear and strong audio quality in virtually any noisy environment. Low level expansion allows further improvements in audio quality by reducing noise usually heard during pauses in conversation.
- **Voice Operated Transmit (VOX)**
Hands free operation when used with Vox headset accessory.
- **Emergency Signalling**
Sends a help signal to a pre-defined person or group of people. The help signal can contain a pre-recorded voice message enabling your whereabouts or status to be determined immediately by the receiving person.
- **Lone Worker**
Added security and safety for individuals who work remotely from their team. The radio enters emergency mode if the user does not respond to the warning signal.
- **Option Board Expandability**
You can expand the existing capabilities by adding one of the following option boards:
 - *Encryption for message security.*
 - *SmarTrunk II for low cost trunking.*
 - *Voice Storage option board provides voice recorder features allowing you to store and retrieve messages.*
- **Whisper**
Allows a user to speak quietly into a radio and still be heard clearly.
- **Call Forward**
Allows calls to be forwarded to another radio user if you are unable to answer your calls personally.
- **User Information**
A 14-character alpha-numeric display contains a battery gauge and signal quality indicator and provides separate distinctive tones plus name decode for many incoming calls.
- **Ease of Use**
Simple menus and an alpha-numeric contact list make the full power of GP380 simple and intuitive to use.
- **Status Calls**
Pre-defined text messages which allow the user to send meaningful messages without talking.

Please check with your dealer for availability on specific option boards.

GP380 Portable Two-Way Radio Specifications

General Specifications	
Channel Capacity	255
Power Supply	Rechargeable battery 7.5v
Dimensions: H x W x D (mm)	Height excluding knobs
With standard high capacity NIMH battery	137 x 57.5 x 37.5
With ultra high capacity NIMH battery	137 x 57.5 x 40.0
With NiCD battery	137 x 57.5 x 40.0
With Lilon battery	137 x 57.5 x 33.0
Weight: (gm)	
With Standard high capacity NIMH battery	428
With Ultra high capacity NIMH battery	508
With NiCD battery	458
With Lilon battery	358
Average Battery Life @5/5/90 Cycle:	Low Power High Power
With Standard high capacity NIMH battery	11 hours 8 hours
With Ultra high capacity NIMH battery	14 hours 11 hours
With NiCD battery	12 hours 9 hours
With Lilon battery	11 hours 8 hours
Sealing:	Withstands rain testing per MIL STD 810 C/D/E and IP54
Shock and Vibration:	Protection provided via impact resistant housing exceeding MIL STD 810-C/D/E and TIA/EIA 603
Dust and Humidity:	Protection provided via environment resistant housing exceeding MIL STD 810 C/D/E and TIA/EIA 603

Portable Military Standards 810 C, D, & E						
Applicable MIL-STD	810C		810D		810E
